

# PATIENT SAFETY CARD

## IMPORTANT INFORMATION FOR PATIENTS TAKING SOLIRIS® (ECULIZUMAB FOR INJECTION)

SOLIRIS® lowers the ability of your immune system to fight infection, which increases the risk of serious infections. This includes meningococcal infections, which can quickly cause death, deafness, brain damage and/or loss of limbs, especially if not **recognized and treated early**.

If you experience any of the following symptoms, you should **immediately** inform your doctor:

- Headache with nausea or vomiting
- Headache and a fever
- Headache with a stiff neck or stiff back
- Fever
- Fever and a rash
- Confusion
- Muscle aches with flu-like symptoms
- Eyes sensitive to light

**Immediately seek medical care  
if you identify/experience any  
listed symptoms.**

You should always carry this card with you during treatment and for 3 months after your last dose of SOLIRIS®. Show it to any healthcare professional you see during this time.

# PATIENT SAFETY CARD

## IMPORTANT INFORMATION FOR THE TREATING PHYSICIAN

**This patient has been prescribed SOLIRIS® (eculizumab for injection) therapy, which increases their susceptibility to meningococcal infection (*Neisseria meningitidis*) or other general infections.**

- Meningococcal infections may become rapidly life-threatening or fatal if not recognized and treated early.
- All patients must be monitored for early signs of meningococcal infections, evaluated immediately if infection is suspected, and treated with antibiotics, if necessary.
- Contact the prescribing physician (see below) as soon as possible.

For more information about SOLIRIS®, please refer to the Product Monograph.

In case of safety concerns, call toll-free at:  
**1.888.SOLIRIS (1.888.765.4747).**

**Patients receiving SOLIRIS® should be instructed to carry this card at all times and to show it to any professional involved in their healthcare.**
